Class 750

České dráhy

Cab setup

- PARK BRK up: reverser handle in, BS2 key unlocked (the loco loads with both out and the valve in Cutout)
- Reverser to Engine only, ENG 1 up for about 8 s until the engine runs, then ENG 1 down
- Train protection on (left aux lit); it loads in Banking
- Lights to Head full
- Independent at Full; brake valve from Cutout to Neutral

Cleared to depart

- Check the signal; reverser to Forward
- Brake valve to Release (Quick release at the far end), independent to Release
- Controller away from you: 1 … 8 (it only moves with the reverser out of Off)
- Acknowledge vigilance with the gear lever
- Brake: controller back to 0, brake valve into the apply zone; Emergency nearest you
