BL36PH

Cab setup

- PARK BRK up: reverser handle in, generator field on (both load off)
- Reverser from Neutral to Forward at Idle (if it is locked: PARK BRK down and up again at Idle)
- ATC / PTC and alerter on (aux squares lit; both load off)
- Lights to Bright
- Independent at Full, automatic brake at Full service (parked)

Cleared to depart

- Check the signal; bell on (ENG 1)
- Automatic brake to Release; independent to Released, ENG 2 up to bail off
- Handle away from you: N1 … N8 (the game stops at N1 first)
- Reset the alerter with the gear lever
- Brake: handle back through Idle and Setup into the dynamic zone; automatic brake into the service zone; Emergency at the far end
