QA PENDING · CROSSCOUNTRY · RIVET GAMES · TCA QUADRANT AIRBUS

Class 220

crosscountry · RIVET GAMES

Cab setup

- Master key on (PARK BRK)
- Start engines (right throttle button)
- Handle to Emergency, then reverser to Neutral (the reverser only moves with the handle in Emergency)
- Handle back to Max brake
- Check AWS and DVD isolation lights are out
- Headlights to Day, open doors (RUD TRIM)

Cleared to depart

- Close doors, wait for the guard buzzer
- Check the signal
- Handle to Emergency, reverser to Forward, handle back to Max brake
- Handle through Off to Power 1
- Open up through the power zone as speed rises
- Acknowledge AWS with the gear lever
