● recommended starting position

Cab setup

- Insert master key (PARK BRK)
- Pull the brake key (right throttle button)
- Mode selector to Driving (flap lever)
- Train voltage supply on (round aux)
- ATB and deadman fuses on (aux squares)
- Compressor to automatic in the cab, set headlights
- Open doors

Cleared to depart

- Close doors
- Check signal and ATB
- Set reverser to forward
- Train brake to Running
- Apply power
- Stop board: your car count, or the next one up
